After the presentation of the school bell by Ricki Jacobs, Mr. Norwood Durr, president of the Alvin Jaycees, delivered the sportsmanship award for District 12AAA to Alvin High School.

Standing at pep rallies has become a living tradition that has strengthened school spirit throughout this year.

## ... of extra effort and contributions ...

The 1963 YELLOWJACKET presents Our Record Year—a year reflecting the extra efforts and contributions which strengthened our traditions at AHS.

This is our record year because each individual has contributed a little more through school spirit, through response to academic challenge, through responsible leadership, and through class support of extracurricular activities. Each small act contributed to the intangible but lasting tradition of AHS.

This created our record year and will set the pace for record years to come.

## ... and so we dedicate and salute ...

We, the yearbook staff, wish to dedicate the 1963 YELLOWJACKET to DR. GEORGE THOMPSON—a man with deep integrity, and a progressive attitude—a man who radiates cheerfulness around AHS, who inspires others, who is willing to unselfishly sacrifice extra hours to build a school with lasting traditions. Without his challenge, this would not have been Our Record Year.

Whether in the hall or in the office, Dr. Thompson is always available to

encourage and help students with their problems.

## "Hats Off to You" . . .

To the Student Council and to each class our thanks for making this our record year. The contributions of time, spirit, leadership, and loyalty—the extra efforts of service—all of these have created an intangible tradition. A tradition that makes this our record year and that sets the pace for record years to come.

## Classes Begin . . . Students Energetically Plunge

Students unhurriedly return to classes after an enlightening assembly.

The excitement and fun of meeting new and old friends again filled the halls of AHS as the school year began. As the newness subsided students began the old routine of tardy slips, signing bus lists for football games, and being absent from school. The more scholarly students saw Miss Cope about studies while the others talked and had good times in the halls.

## into School Routine

Senior "Monsters" and Junior "Demons" enthusiastically planned and prepared for "Powder-puff" as October 5 drew near. Long hours of practice contributed to a well-played game and an entertaining half time. Good sportsmanship was displayed by both teams as the Seniors "mashed" to victory.

Talented cheerleaders lifted team spirit through defeat and victory, while players hurriedly took water breaks between plays. Mixed emotions and congratulations filled the atmosphere at the end of the game.

Beauties, floats, and football captured the spirit of homecoming. Rivalry between the classes began with the building of floats which were the main attraction of the homecoming parade. The evening was highlighted with the crowning of the queen and the Jackets' 7-6 victory over LaMarque.

Exes and students of AHS enjoyed a fun-filled

## THE SATISFIED OYSTER

**S**EVERAL million years ago, the long process of evolution ended for the oyster. His hard shell protected him from most enemies. All he had to do to get food was to hang onto a reef or rock and suck it out of seawater. If any irritating substances got stuck in his flesh, he just surrounded it with a smooth pearl.

Nature arranged it so that the satisfied oyster quit trying to better his lot. And to this day, he remains unchanged—just an oyster.

Man got a better deal from Nature. Nature arranged it so that the human race housed a strong spark of dissatisfaction. Dissatisfied with rambling over the earth for food, man developed modern agriculture. Dissatisfied with exposing himself to the elements, man developed modern housing and clothing. Dissatisfied with letting Nature alone heal his wounds, man developed modern medicine. Man's acute dissatisfaction with "letting Nature take its course" made him think. And his thoughts combined with his enterprise gave us modern civilization.

For men with ideas and the energy to make them work gradually began channeling Nature into the course they wanted her to take. In the forefront of such men were the scientists of all nations. They pried open the secrets of Nature and put them to work for the benefit of all mankind.

One secret which stared man in the face from the dawn of time was seawater—rich in treasure if man could only discover how to get it out. Dr. H. H. Dow, who founded our firm in 1897, was the man who did just that. Restless, energetic, "dissatisfied," he compelled the brine of prehistoric seas underlying Midland, Michigan, to give up two of modern man's greatest treasures—bromine and magnesium.

**A**ND THUS we of Dow and Ethyl-Dow are in Brazoria County today extracting bromine and magnesium from the waters of the Gulf of Mexico. In addition, right here we are making scores of other major products whose secrets the restless dissatisfaction of men like Dr. Dow pried open from Nature. Our modern industrial society could not exist without these products, all made from idle, overlooked, neglected resources that had small value before.

Ironically enough, The Dow Chemical Company owes Nature a debt for letting the oyster remain unchanged. Shells of long-dead oysters make excellent lime. We roast tons of them in our kilns every day and use them to help us take the magnesium out of seawater.

## "Our Record Year" Ends at A.H.S.

Without the challenges and inspirations of Dr. Thompson, this would not have been "Our Record Year." In addition to the challenges presented by Dr. Thompson, we are left with this lasting challenge.

"I challenge you to continue to improve this high school, to support it in all of its activities, to uphold and respect its traditions, and above all to support and respect the students who love it so deeply. If you will accept this challenge, you will always be proud of your high school and its students."

Our Record Year ends with the words familiar to all A.H.S. students . . .

*. . . Hail Alma Mater*

*Hats off to you,*

*Ever you'll find us.*

*Loyal and true.*

*Firm and undaunted.*

*Always will be.*

*Hail to the school we love*

*Here's a toast to thee.*
